

EAA 9 and IAC 34 Annual FAASTeam Event

In 2013, FAA converted some of the medical conditions that required a special issuance from the FAA into conditions that the AME can evaluate and then issue the medical certificate (CACI - Conditions the AME Can Issue). Aviators requiring medical certification with certain medical conditions need to understand the new role of the AME to make the process run efficiently. This presentation will be by Dr. Bob Lewis, FAA Designated Senior Aviation Medical Examiner. Wings credit will be available for this activity for attendees.

Directions: Activities take place in the main FBO (Prime Aero, Inc.) hangar.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
